HOME TANNING

OVERVIEW OF PRODUCTS

Hapro
TOPAZ

Feel Balanced

Sunlight is a pure and natural way to energise your mind and body. The sun's ultraviolet rays have a positive effect on our bodies. Sunlight strengthens the immune system, stimulates the body to produce more vitamin D and, perhaps most importantly, gives us a positive look and energy. So it's not surprising that a growing number of customers with a Hapro 'home sun' are feeling good about themselves and have an attractive and vitalizing tan.

Hapro Topaz is a multifunctional sunbed from Hapro's Home Tanning collection. With its compact, space-saving design, a wealth of design details, features and options along with a great price/quality balance. The freedom to select the number of lamps and choose the optional facial tanner with high-pressure tanning lamp allows you to create the perfect Topaz for your home and tanning needs.

TOPAZ **8V**

The Topaz V series, with its four wheel base and vertical stand, is a unique sunbed within the Hapro Home Tanning line. Exceptional comfort: the gas spring-assisted height adjustment mechanism operates with a surprisingly light touch and is unique among all similar products. Whether you prefer to sunbathe while lying, sitting or standing, the Hapro Topaz V series adapts to any situation. This model is available in various versions, featuring 8 to 12 lamps. You will certainly find a model that meets your personal needs.

TOPAZ **10/1V**

TOPAZ **24 C**

The good price/quality ratio makes the Hapro Topaz C a favourite system for providing a wellness experience in your own home. The numerous models and lamp possibilities (22 and 24 tanning lamps) ensure there is a perfect solution for any desired configuration. The top-of-the-line model even includes an integrated MP3 connector, aroma system and digital timer.

TOPAZ **24/1 C**

TOPAZ **22 C**

If your wish is to combine a luxurious feeling of space with individual lying comfort, than select the Hapro Jade T. The integrated, double gas-spring system enables you to easily position the sun canopy at the ideal distance from your body. You can lie on the surface of your choice, with all the room you desire, tanning in perfect comfort. After enjoying your tanning session, you simply return the canopy to the space-saving 'resting position'.

JADE **T**

JADE **T Lc**

With features that include a large tanning surface, a user-friendly control panel and an easy-lift system for opening the canopy, the Hapro Jade C brings pure wellness into your home while maintaining simplicity. Featuring high-quality materials, a perfect finish and an elegant colour scheme, the emphasis is clearly on luxury, while the handy Click-Strip-System makes maintenance a breeze.

Hapro Jade C with optional decorative panel on the front of the bench

JADE **C**

Hapro JADE

Feel Independent

Enjoy the sun, whenever you like. Experience the comfort of wellness and well-being at home, any time of the day. Boost your energy level and heighten your feeling of vitality whenever you desire. Hapro Jade is synonymous with maximum comfort, beautiful design and perfect tanning results. The sunbed's canopy provides the optimal tanning distance to the body, without restricting your space. The refreshing, cooling body fan (optional) provides a relaxing breeze and the perfect tanning climate. You set the desired session length with the built-in, easy-to-use analog timer.

Whichever lamp option you choose, the integrated Strip-Reflector-System (SRS) optimises the power of the 24 tanning lamps and maximises their effectiveness. The special 400 W high pressure lamp provides extra facial tanning, with immediate pigmentation result and develops comfortable warmth. The Lc version of the Jade has special tubes with an integral tanner in the face area. The pink coloured lamp parts increase the tanning result in the face, without generating extra heat.

Hapro
ONYX

ONYX T

Like the Jade, the Onyx is also available with a T-stand. The high-quality gas-spring mechanism and the steel base make this version an excellent choice for anyone who prefers to lie on their own comfortable bed. The Onyx T is also a favourite among people who have limited space and are looking for a space-saving solution for luxurious tanning.

ONYX **C**

Onyx C – fits perfectly in any interior – with its high-gloss finish in Titanium Bronze metallic and stylish colour scheme, this sunbed is sure to complement any room in your home. You can see it as visual wellness in addition to the wellness for your body. The canopy opens easily, requiring little effort, the bench provides a comfortable lying surface and the 26 tanning lamps in combination with the fine finishing ensure a pleasant and relaxing tanning experience.

Feel Strong

Pleasure in life and relaxed enjoyment often go hand-in-hand with special experiences – tranquil moments in inspiring surroundings filled with beauty and discernible quality. When you choose the Hapro Onyx you are a true professional. Based on the design of the Hapro Jade, the Onyx offers a selection of special features that make tanning both more intensive and more relaxing at the same time.

The sunbed features a body fan and, optionally, an extra fan for the face. The digital display is ergonomic and easy to use. A time indicator produces a discreet tone to indicate when the tanning session is nearly at its end. The built-in timer allows you to check how many hours your sunbed has been in use and when maintenance should be performed, whenever you like. The shape of the canopy creates the best possible balance of tanning.
As a standard feature, the Onyx canopy has extra long 1.90 metre lamps and an integrated Strip-Reflector-System (SRS) that can be optionally expanded with five special lamps for the face. Another possibility is a special high pressure lamp for the face that produces an extra tanning accent and which can be switched on or off at any time.

Feel Free

The Mobile Sun allows you to brighten up your day by bringing the sun into your home whenever you like. Compact when folded away, easy to set up and convenient to roll anywhere in your home on integrated wheels. Mobile Sun fulfils your desires in just a few seconds. The simple handling and three 500 watt lamps cast a new light on achieving a spontaneous wellness feeling at home. The analogue timer keeps track of the time ensuring that you achieve an attractive, even tan and a brighter complexion.

hapro
MOBILE SUN

MOBILE SUN HP 8540

Simply lie down, enjoy the warmth and let go. Mobile Sun is there, whenever you are ready to relax. Mobile Sun improves your complexion – giving you a golden tan that lets you look your best. The distance meter helps you determine the optimal distance for effective and responsible tanning.

Hapro
INNERGIZE

INNERGIZE **HP 8550**

Feel Healthy

Everyone has their own plans and dreams for life, but there is one thing we all share: the desire for individual relaxation and tranquillity, so we can remain attractive, fit and healthy. The luxurious Hapro Innergize, with its unique design and numerous functions, is the ideal full body wellness solarium for home use.

In the light of the new Innergize HP 8550, vitality has a new meaning: delightful intense heating of muscles and joints, better blood circulation in the skin and muscles, and pure relaxation through soothing infrared light. At the same time, the ultra violet light results in a mild, healthy tan, ensuring that you look healthy and attractive – a perfect healing effect. This combination is what makes the Hapro Innergize so unique. Moreover, even this basic model produces relaxing aromas to complete the wellness experience. The Innergize is exceptionally compact and user-friendly. Folded up, the device is hardly larger than a sports bag. You will have it set up and ready to use within 10 seconds, and afterwards it is just as easy to fold it back into its compact form. Furthermore, the Innergize is easy to move and to put away thanks to the integrated wheels.

INNERGIZE **HP 8565**

The Innergize HP 8565 is wellness comfort taken to the highest level: this version offers all the basic functions of the Innergize HP 8550 as well as extra features for even more relaxation and convenience.
In addition to the combination of ultra violet lamps with infrared lamps, this full body wellness solarium offers the possibility to use just infrared light. A more flexible, energy-saving solution is hardly conceivable.
Relaxation and gradual tanning of the entire body or specific areas; Hapro Innergize makes it all possible. Extra features make the ultimate wellness system complete: the digital display and remote control provide you with convenient control of the built-in radio, wellness sounds, MP3 connection and headphone jack.

Hapro
SUMMER GLOW

SUMMER GLOW HB 175

Sun in your own home, throughout the year, for the perfect tan that adds extra magic to your enchanting smile. For everyone who loves the sun and wants that radiant look: the Hapro Summer Glow is always within hand's reach and ready for use at a moment's notice. Place it wherever you happen to be standing... or sitting. The compact HB 175 facial tanner: with two tanning levels, session memory for two users and two pairs of UV protective goggles included. The four 15 watt lamps, the Strip-Reflector-System (SRS) and a timer provide an intense, individual tan.
The small HB 175 is a giant.

Planning to head south? Sun at home more often! Unmatched and completely in keeping with the wellness trend: Summer Glow from Hapro in ‘bright white’ and a clean, attractive design. With its 400 watt lamp in combination with the parabolic reflector system and large tanning range, the HB 404 is the most compact half body tanner in Hapro‘s Home Tanning collection. The reflective filter produces intense light that results in a skin-friendly tan. The integrated distance meter guarantees the optimal tanning distance. Accurate: the timer. Practical: two pairs of UV-protective goggles included. Relax at home, be assured of a radiant and healthy appearance on every occasion – Hapro Summer Glow HB 404.

PROLINE

RISING

Hapro
PROLINE

As a leading international manufacturer of professional and home tanning beds, Hapro is one of the few companies with credible competence in both segments. The Hapro Proline was developed – for studios, spas and beauty salons and maximum at-home luxury – in line with our premium requirements of luxury and comfort as well as our customer-specific wishes for practicality and easy operation. The Hapro Proline seamlessly integrates both technically as well as visually into any situation and infrastructure.

Here comes the sun.

Balance and symmetry. A sense of well-being and vitality. These are the important factors of today's principles of living. A charismatic aura and attractiveness as a consequence of inner strength. The sun as enjoyment and a source of energy for tackling everyday challenges. The new Hapro Proline is the perfect complement to this feeling, this lifestyle. A milestone in impeccable quality and efficiency – not only contemporary and top-quality in design and appearance but also unique in its style. The individualist for individualists.

Hapro
PROLINE

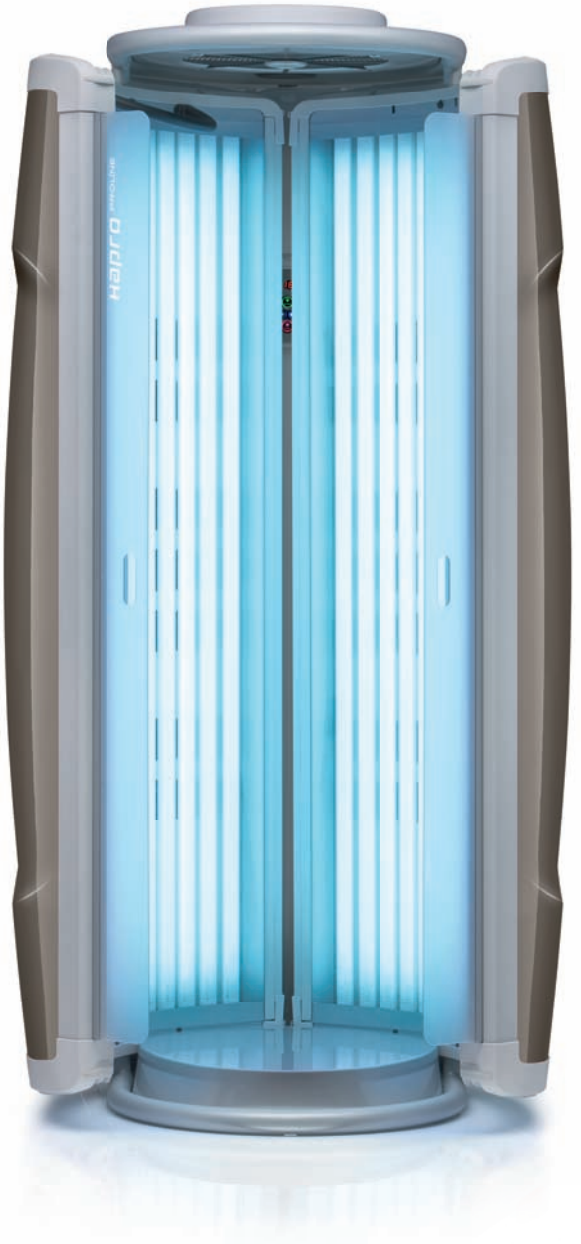
Superior materials, gleaming surfaces and excellent manufacturing quality in conjunction with the shapely design make the Hapro Proline sun bed a true attention-getter.

The tanning duration can be individually set using the centrally integrated timer at the head of the unit. Naturally, you can also control the Hapro Proline sun bed using coins or an external timer.

Take me away.

The Hapro Proline sun bed is ideal for a relaxing sun bath. User-friendliness, ergonomics and comfort are perfectly combined in this unit. The Hapro Proline tanning bed's exclusive look can be attributed to the attractive decorative panels combined with the trendy colors Titanium Bronze metallic or Lounge Red metallic. A unique product concept in this segment.

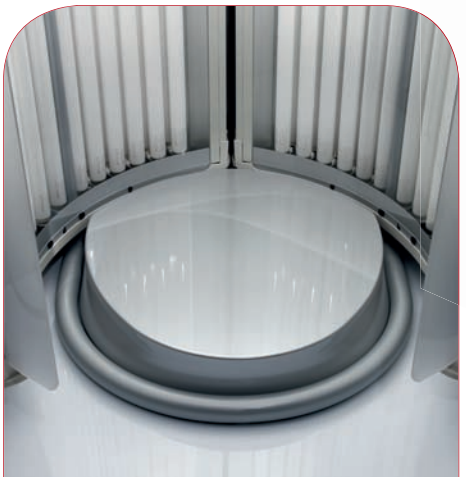
The Hapro Proline tanning bed's body cooler is mounted at the foot of the unit. Regulation makes it possible to maintain an all-around comfortable temperature in the tanning tunnel. An additional cooler can be optionally included at the head of the unit.



The body cooler is included with the standard equipment, as is a solid relaxation handle. If desired, an additional, second body cooler can be provided for a comfortable tanning environment. The multifunctional ceiling is an absolute highlight of form and function – it can be optionally used as an alternative to the body coolers. Here the manufacturer has combined a centrally integrated body cooler with loudspeakers for acoustic enjoyment while simultaneously achieving a visually pleasing finish to the product.

Light up my Life.

The Hapro Proline vertical tanning unit is a sensation. Equipped with 100 W or 160 W technology, technical refinements, sophisticated features and comfort-increasing highlights, this sun shower will inspire the entire market. Gleaming materials, a contemporary design and color accents emphasize the modern and high-quality character of the product. A unique feature for a sun shower in this product segment is the integrated floor – and the solid tubular steel frame imparts robust strength and stability. The device is equipped with extra long tubes (1.90 m) thus providing a larger tanning area. It runs without high-voltage current and can be plugged into a regular wall power outlet.



The special mechanism for opening both doors enables an extremely space-saving positioning of the sun shower. Unique in this product is the integrated floor for increased tanning position and easy cleaning after taking a sun shower.
